LG CeilingFan

PRESENTING

THE FAN

Super Silent with Biomechanically Designed
 Wings & Premium Inverter Motor

Low Noise

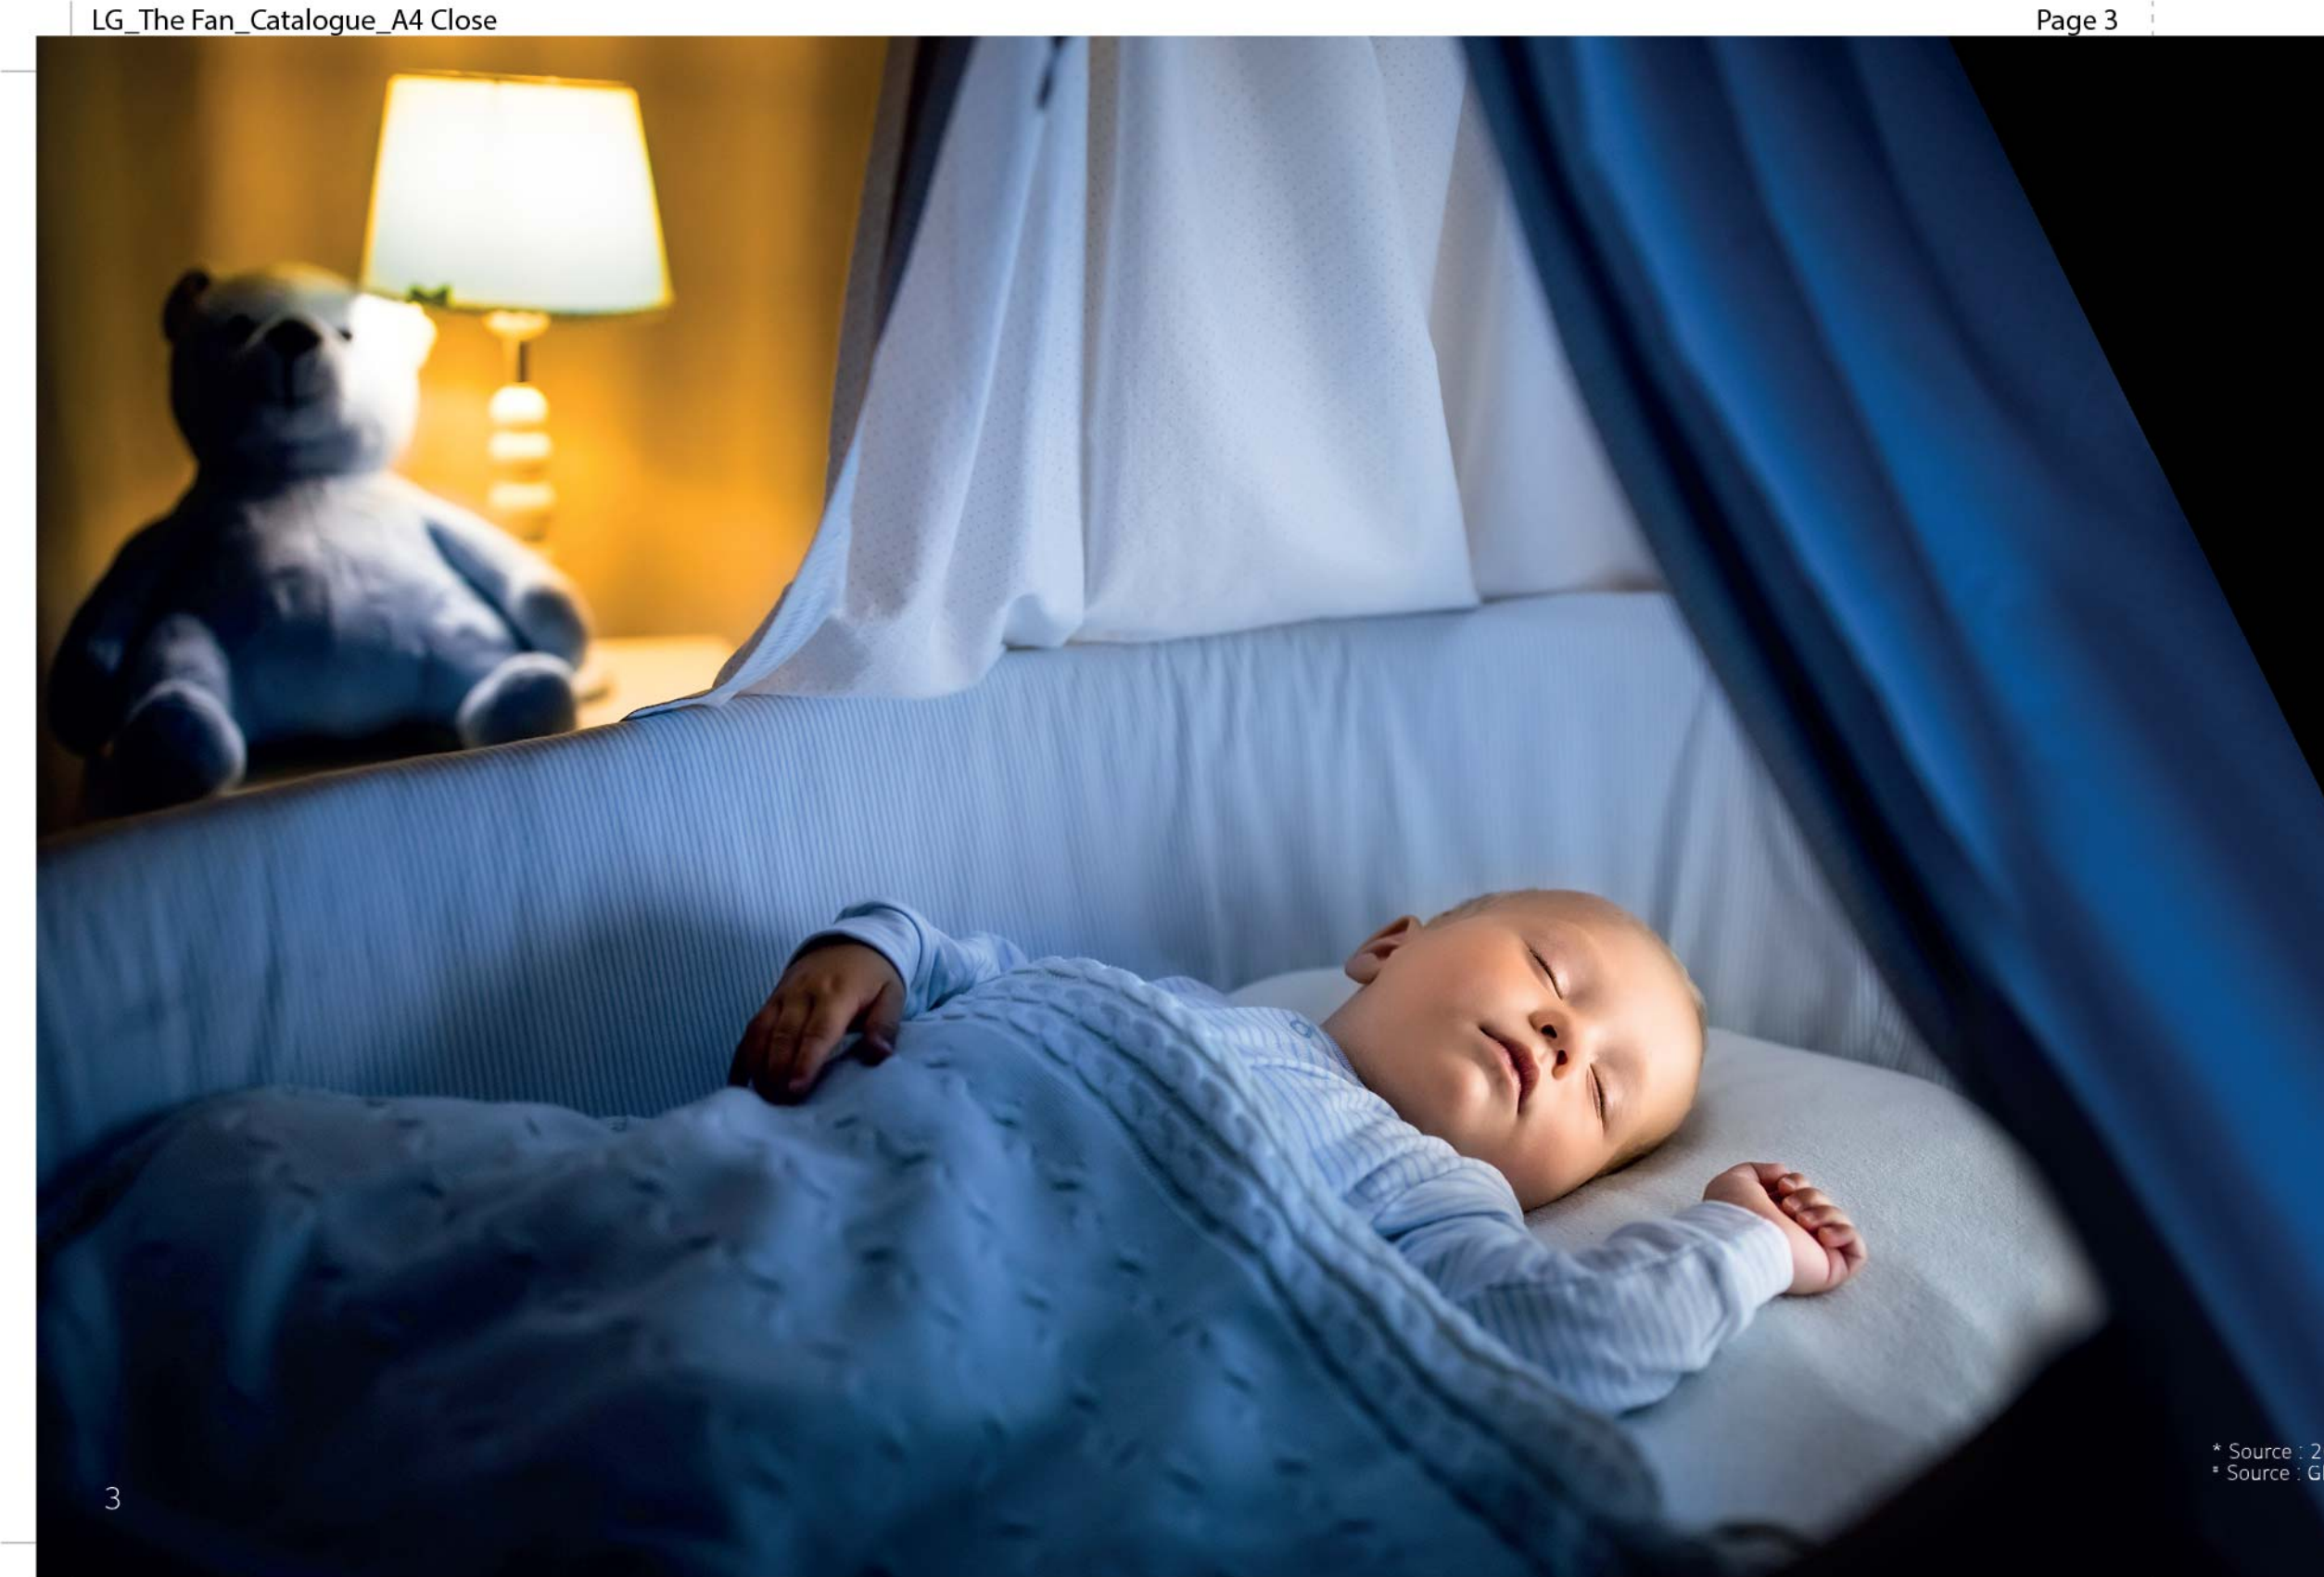

DualWings

SWIFT AS THE WINDS. SILENT AS THE WOODS.

For years, ceiling fans have always been India's go-to solution to beat the heat. But, it has been more than a century now that people have asked of a better purpose from a fan. Same old fashion technology, similar designs and the annoying squeaky noise. Fortunately, the winds have changed. As a highly effective air circulating system expert, LG proudly presents THE FAN - India's first ceiling fan with DualWings that leaves no blind spot, assures the most natural air experience and unmatched comfort you can ever imagine. Straight out of a sci-fi world, this modern fan not only keeps your home cool and breezy, but also adds style, aesthetics to your interiors. LG Ceiling Fan offers the perfect balance of design, technology, connectivity and utility, and makes sure that you stay cool, no matter whatever is the weather.

NATURAL AIR FLOW. ULTIMATE COMFORT.

LG Ceiling Fan has the most advanced biomechanically designed DualWings and powerful 40-pole BLDC Inverter Motor that delivers the best air flow possible with Low Turbulent Intensity and makes life comfortable for you with cutting edge new-world features.

PREMIUM QUALITY WIND

LG Ceiling Fan's efficient distribution and mixing of wind creates the most pleasant, natural and uniform air flow. It has a lower and steady Turbulence Intensity that prevents you from feeling the gust of wind irritating your eyes or other disturbances caused due to unpleasant air flow.

TURBULENCE INTENSITY

(coverage area : larger than 0.25m/s)

BIOMECHANICAL DESIGN

Biomechanically designed unique wings of LG Ceiling Fan are inspired by the fins of a Humpback whale swimming silently across the deep blue sea. This LG patented Humpback Whale Protrusion design increases the efficiency of air flow and decreases the decibel levels.

LOW NOISE

46 dB

HIGH EFFICIENCY

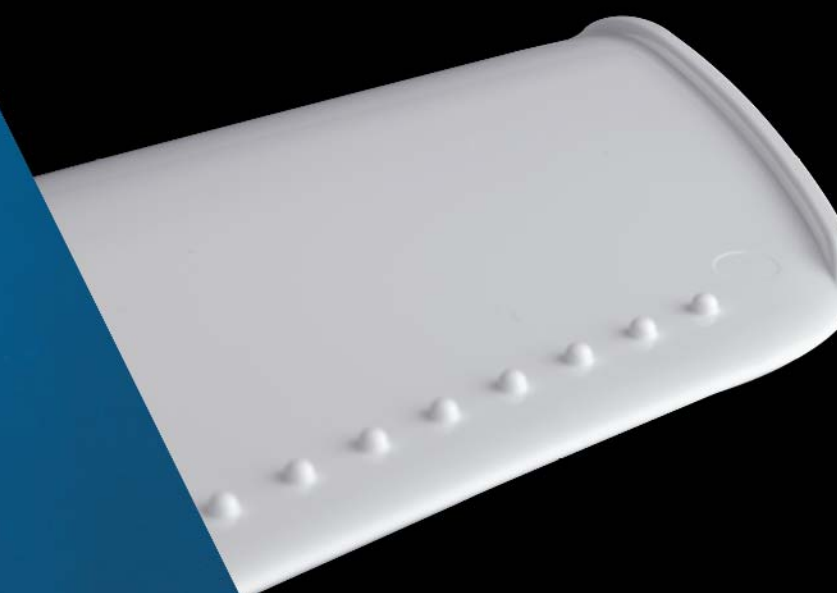

Service Value 7.6

LG Ceiling Fan

54.2 dB

Service Value 4.0

Conventional*

LG PATENT**

The patented humpback whale protrusion of the winglet inspired by the fin of a whale swimming swiftly in the sea ensures reduced noise and increased efficiency while in operation.

LG CEILING FAN

40 POLE BLDC MOTOR

PREMIUM PCB

MORE SAFER
MORE DURABLE
MORE RELIABLE

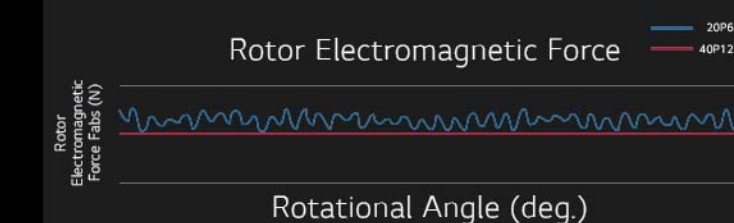

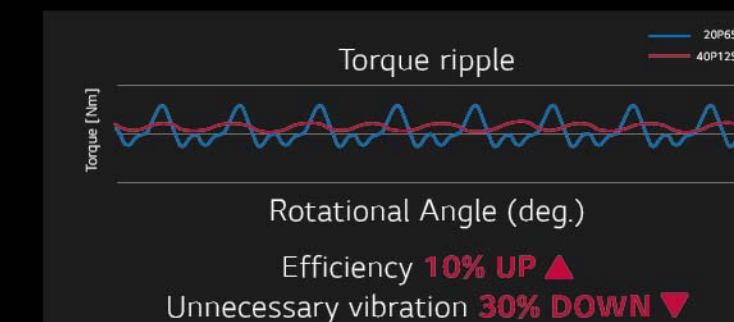

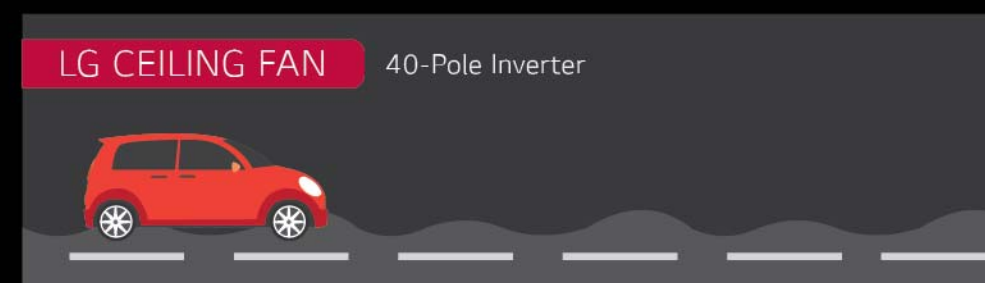

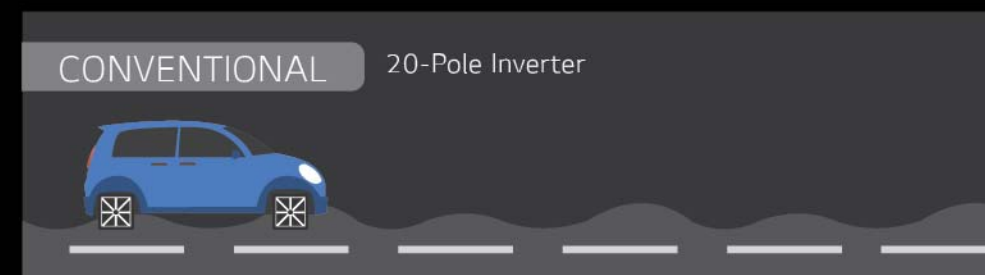

40 POLE BLDC MOTOR & PCB

24V Brushless Direct Current (BLDC) Motor with 40 Poles and Double Insulation Design, LG Ceiling Fan is undoubtedly more safer, highly durable and reliable.

With 40 Pole BLDC Motor, LG Ceiling Fan achieves a higher efficiency by 10%* and cuts down on unnecessary vibrations by 30%* as compared to the already existing 20-pole motor conventional fans in the market.

Double Insulation Design that includes an advanced stabilizer makes LG Ceiling Fan, simply save more energy and performs like none other.

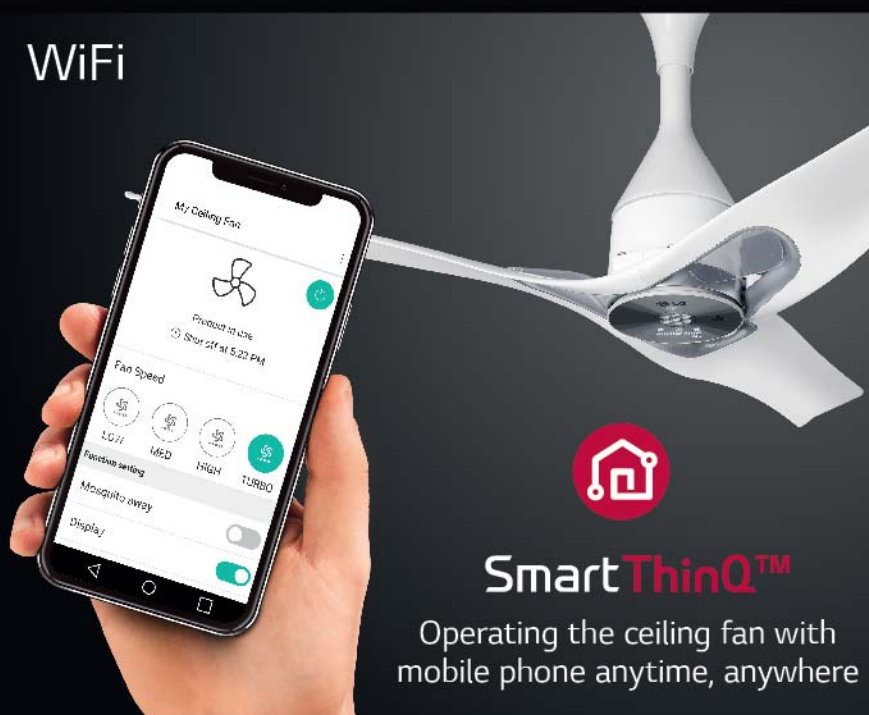

The Motor is 62%** more efficient as compared to the motor of conventional fans.

SMART CARE FOR BETTER LIFE

SMART THINQ – This technology allows you the freedom to control LG Ceiling Fan by calibrating it with your home Wi-Fi and operating it through your dedicated LG Smart ThinQ mobile app any time and from anywhere. Besides, the Smart Diagnosis feature built in the app provides usage tips and useful information based on your product usage patterns for a seamless user experience. You can also add voice control to the App to work with smart assistants like Google and Alexa for more convenience.

Google Assistant feature will be available by July, 2019

MOSQUITO AWAY – India's first ceiling fan with unique mosquito repelling technology. This feature deactivates the CO₂ sensing capability of the mosquitoes by activating ultrasonic sound waves. Just switch on the power and activate Mosquito Away with the dedicated key on the remote.

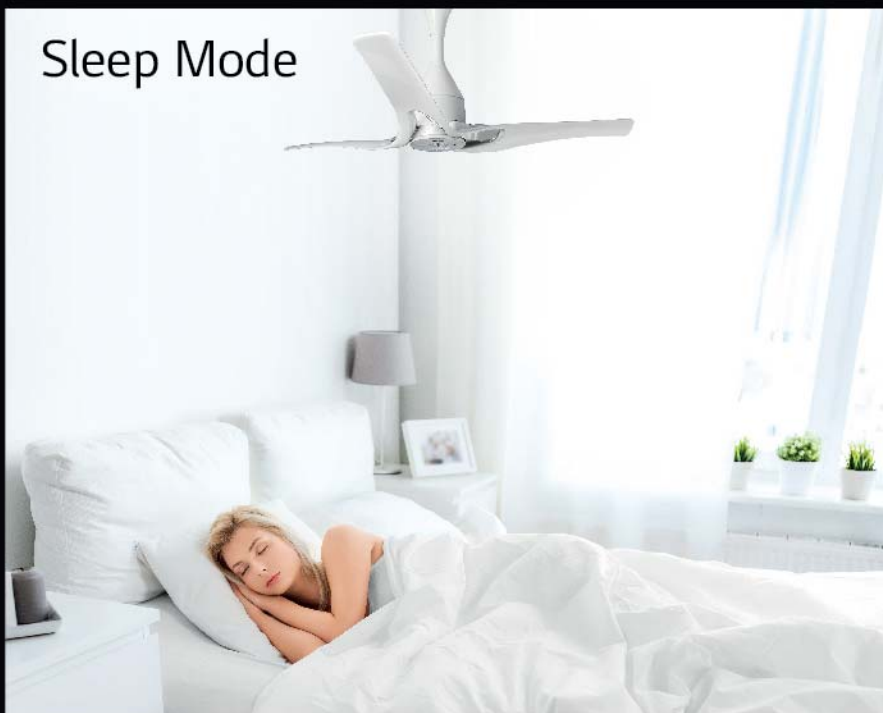

SMART LED DISPLAY – LG Ceiling Fan is fitted with the most beautiful looking LED display panel that clearly gives you the accurate view of all the settings of operation.

REMOTE CONTROLLER – Simply control LG Ceiling Fan smartly while chilling on your comfy couch or resting on your cosy bed. It's a convenience of the next level.

SMART CARE FOR BETTER LIFE

Sleep Mode

COMFORT SLEEP MODE – LG Ceiling Fan Sleep Mode function is geared towards making sleeping conditions more pleasant by automatically decreasing the fan speed by one step every hour. The speed is maintained in-case the fan is already operating at Speed 1.

Premium Design & Material

Uni-Body / Easy to clean

UNI-BODY DESIGN - The unibody design of the fan enables it to be bend proof and rust proof, thus ensuring a longer product lifespan.
